PROFESSIONAL SUMMARY

Dedicated Computer Science student specializing in AI and scalable intelligent systems, focused on converging RL and LLMs. Built hybrid architectures and multi-agent frameworks with strong foundations in Machine Learning, Deep Learning, and problem-solving, alongside experience as a Kaggle Datasets Expert.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University.	Grade: 8.1/10.0
Intermediate (Class XII)	2022 - 2023
A.P.S International School	Grade: 81.0%
Matriculation (Class X)	2020 - 2021
A.P.S International School	Grade: 89.0%

INTERNSHIPS

Full-Stack Mobile Development Intern	May 2025 - July 2025
Mentorship Project	Remote
• Collaborated on building an intelligent receipt digitization platform for automated expense tracking. • Developed an image-processing pipeline using Node.js and Sharp for receipt compression and storage optimization. • Integrated Keycloak authentication and managed Docker-based containerized services. • Tech Stack: React Native, Node.js, TypeScript, Docker, Keycloak.	

PROJECTS

Intelligent Contract Risk Analysis (Github) (Demo)	February 2026
Solution: Built a LangGraph-based agentic pipeline for automated legal risk detection and clause analysis using a high-precision ML classifier (F1: 0.8859) with cloud and offline (Ollama) support.	
• Learned to design multi-node LangGraph workflows with Logistic Regression for rapid risk classification.	
Tech Stack: Scikit-Learn, LangGraph, Ollama (Llama 3.3/Qwen), Streamlit, Plotly, Pandas, PyPDF2.	
Interview Agent – AI-Powered Interview Preparation Tool (Github) (Demo)	April 2025
• Built an AI-powered Interview Agent for dynamic interview question generation and mock interview simulations. • Integrated Gemini API for real-time LLM inference and adaptive responses. • Designed AI agent workflows using Vapi and LangGraph. • Tech Stack: Next.js, Gemini API, Firebase, Vapi, LangGraph, Vercel.	

CERTIFICATIONS

Anthropic AI Certifications Anthropic (Link)	April 2026
• Achieved Anthropic AI Certifications in Agent Skills, Claude Coding, API Integration, and MCP, gaining expertise in AI agents, prompt engineering, Claude workflows, and context management for building LLM-based applications.	
Specialization Certificate Machine Learning Stanford University & DeepLearning.AI on Coursera (Link)	May 2025
• Mastered Linear and Logistic Regression, Neural Networks, Decision Trees, Clustering, Anomaly Detection, Recommender Systems, and Reinforcement Learning to build a strong foundation in supervised, unsupervised, and advanced machine learning algorithms.	

SKILLS

Computer Language: C, JavaScript, Python, SQL
Soft Skill: Critical Thinking, Research, Teamwork
Databases & Data Tools: Excel, Firebase, MongoDB, MySQL, Supabase, Tableau
AI / ML: GenAI, Generative AI, Hugging Face, LangChain, LangGraph, LLM, Machine Learning, TensorFlow
APIs & Testing: API
Cloud & DevOps: Docker, Git and Github
Domain & Business Skills: Analytics
Frameworks & Libraries: Matplotlib, Next JS, Node.js, NumPy, Pandas, React
